# OUR SPECIALIZED CARE, YOUR SUCCESS STORY

*Curtis came to Touchstone after a surgery where his left hip was replaced. He suffers from osteoarthritis and needed therapy to regain mobility.*

“ Touchstone turned out to be the best stop between the hospital and home. At first, I was leery about being in a ‘nursing home,’ but was pleasantly surprised! The therapy pushed me—which I really needed. It built my confidence and prepared me to be independent again. The staff were all kind, helpful and attentive to my needs. They made my transition comfortable and safe.
